

## BERESFORD LIKELY TO PLAY STAR PART

English Admiral Takes a Hand  
in England's Fight for  
Larger Navy.

LONDON, March 30.—There is strong prospect that the picturesque and popular figure of Admiral Lord Charles Beresford will be seen immediately in the thick of the political struggle, throwing fresh fuel on the naval agitation.

England's foremost admiral always has been outspoken concerning his views, and since his return to London, after having been relieved of the command of the channel fleet, he has declared he would do all in his power to stir up the country to insist upon a large and particularly a more efficient navy.

Lord Charles had a long discussion on naval affairs with Premier Asquith today. He regards the shortage of reserve stores as the chief present weakness of the navy, although the state of repairs of the smaller craft is most unsatisfactory to him. For the defects, Lord Charles blames the economic policy of the cabinet ministers, particularly the chancellor of the exchequer, David Lloyd George, whom he designates as a "little navy" man and whose interests, he declares, are chiefly old age pensions and other domestic projects.

The debate in the house of commons yesterday appears almost to have flattered the little navy party. Newspapers that have heretofore been its strongest organs, now say that it is impossible for the country to run the smallest risk of being overtaken by Germany in the construction of battle ships.

There are good reasons for believing that the cabinet has already decided to build eight Dreadnoughts, and has notified the ship-builders of the intention to lay down the second four within the fiscal year.

## HEAD TELLS STORY OF MYSTERIOUS MURDER

SEATTLE, Wash., March 30.—A bodyless head, badly crushed, where the murderer's instrument struck it, and thickly smeared with quicklime, has been found by the crew of a dredger on the east waterway. Coroner James C. Snyder, who investigated the discovery, declares that the man had been murdered and his body cut up and packed away in quicklime and then thrown on a city garbage dump.

The murdered man was about 35 years old. The right upper jaw is missing.

## Prohibitionists Gain.

JEFFERSON CITY, Mo., March 30.—The advocates of state-wide prohibition won a point today when the house instructed its committee on constitutional amendments to report a prohibition amendment. # S.S.S. CURES SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness. Instead it irritates and inflames the delicate fibres and tissues around the pores and glands and produces some of the many forms of skin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acid humors with which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S.S.S. cures Skin Diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acid blood, and permanently cures every variety of skin affection. Local applications can only soothe they never cure because they do not reach the blood. S.S.S. goes right into the circulation, reaches the trouble and cures it by removing the cause. Book on Skin Diseases and any medical advice free to all who write.

# The Team That Wins

There is many a bright, capable young man in this city that could manage a factory of his own—but he lacks the capital.

Then there is the man with money and friends who wants to go into business for himself—but he lacks the experience.

If these two men could only be brought together.

And they can.

In the want ad columns of the daily paper men tell each other what they need.

If you need a partner that has money or one that has experience—tell him so through the want ad and you will not be long in effecting the combination.
